Mario Chiodo

Nightmare Collection by Mario Chiodo!

"After 35 years of designing monsters and characters masks for Halloween and Cosplay, I felt it was time to introduce the younger generations to the original classic characters but with new twists. I experimented with larger sizes and new shapes and added puppetry features to some characters.

I designed movie-quality impressive costumes to spook everyone at the party with their moving parts.

I hope you enjoy these new versions of creatures and characters who have made Halloween the best holiday of the year!"

The title "HORROR XMAS" is rendered in a bold, red, 3D-style font. A Santa hat is perched on the letter 'O' in "HORROR". A string of multi-colored Christmas lights is draped across the letters. The background is white with faint, light-colored brushstrokes. The page is framed by a torn-edge border with orange and black stripes.

Nothing is funnier than putting a sinister black humor twist on Christmas. While the well behaved will receive presents from Santa, the naughty ones will seek for the opportunity to escape the evil and sinister Krampus, the Belsnickel and the goblins. There is a perfect balance between dark and light...

BE GREEN BE GHOULISH[®]

PRODUCTIONS

All GHOULISH products are born in a natural and organic process with 100% natural latex.

WE DON'T CUT DOWN ANY TREES!

Rubber trees exude latex through a small cut so they live peacefully.

Rubber tree seeds

WE DO NOT POLLUTE LIKE THE MANUFACTURER OF PLASTIC, PVC OR SILICONE MASKS.

Reduce

Reuse

Recycle

We work with **331 photovoltaic cells** that represent more than 13,500 square feet that converts solar energy into useful electricity, so that the factory reduces environmental impact.

Rubber trees exude latex through a small cut, **they have more than 40 years of lifespan** before planting a new tree, and the thousands of trees process carbon dioxide from the atmosphere.

The pigments we use to paint our masks are of **natural origin** so they do not contain lead or metal loads.

To reduce our consumption of single-use plastics, we build 3 Stainless Steel Hoppers to store over 24 tons of latex and reduce consuming more than 2,000 plastic drums a year.
